

HB 2044 -- Incentives Regionalization Act

Sponsor: Holsman

This bill establishes the Incentives Regionalization Act to provide economic incentives to induce employers to relocate from Kansas to Missouri or from Missouri to Kansas. If the State of Kansas adopts legislation which is substantially similar to these provisions in the opinion of the Director of the Department of Economic Development, whenever an employer makes an interstate move, he or she will be eligible for specified economic incentives directly proportional to the distance moved. An employer moving 30 miles or more may receive the maximum incentives allowed under law of the state to which he or she moves. If the interstate move is less than 30 miles, the employer can receive no more than the fraction of the maximum incentives in proportion to the number of miles moved to 30.
